AdenoGest

AdenoGest is a complementary feed for racing pigeons, used to combat stress and problems with digestion. Our unique blend of 18 herbal powders effectively improves the digestion of birds by preventing yeast build up and fighting crop retention, which in turn helps to produce drier droppings and stimulate their appetite, so your birds can build and hold as much condition as possible prior to their race. AdenoGest can also be used year round for optimum health.

- Improved Digestion
- Stimulates Appetite
- Fights Crop Retention
- Drier Droppings
- Silky Feathering
- Speeds Recuperation
- Prevents Yeast Build Up
- Resistance to Fatigue

Composition: Myrhh, Marigold, Quassi, Echinacea, Meadow Sweet, Thyme, Thuja, White Horehound, Peppermint, Wormwood, Tansy, Rosemary, Cinnamon, Clove, Black Horehound, Ginger, Aniseed, Slippery Elm.

Directions For Use: Mix 10g to 1kg of feed, moistened with water. Use for 3 consecutive days during times of illness or stress (sickness, post vaccination/medication). For year round optimum health, use twice weekly during breeding, racing and moulting. In times of sickness, use with a light feed such as Bamfords Race Diat 2000

Available In: 100g Tub.
