

# Aniseed Oil

Aniseed plays an important roll in stimulating and conditioning birds. Our naturally concentrated Aniseed Oil is ideal for breeding and showing seasons, giving birds that extra edge to stand out from the rest, as well as prompting the moult. Additionally, aniseed is a strong, natural attractant for pigeons as they crave its sweet taste and smell making our Aniseed Oil the perfect product to encourage fast trapping on return from racing, particularly young birds. It can also be used for helping with digestive health; its antimicrobial properties act against bacteria, yeast and fungi in pigeons and aviary birds.

- **Natural Attractant**
- **Ideal For Breeding & Showing**
- **Encourages fast trapping upon race return**
- **Dropper Bottle for ease of use**

**Composition:** Aniseed Oil.

**Directions For Use:** Add a few drops onto feed and mix thoroughly. Shake before use. Do not add to water.

**Available In:** 50ml Bottle.
