# British Finch

British Finch is a carefully formulated mix containing a wide variety of both coarse and fine seeds that help to keep our native birds in great shape all year round. Linseed and nigerseed promote healthy skin and a quality plumage, whilst the other protein-rich seeds help maintain optimum condition and digestive health. British Finch is a versatile feed that is suitable for both the breeding and resting seasons. The mix contains a blend of naturally found wild seeds to support natural feeding habits and keep birds bouncing in good health.

- Supports natural feeding habits
- Promotes healthy digestion
- Builds and maintains condition
- Quality plumage
- Suitable for year-round feeding

**Composition:** Canaryseed, Black Rapeseed, Wild Seeds, Hemp, Linseed, Naked Oats, Red Millet, Niger, Japanese Millet.

**Feeding Instructions:** Feed daily in small amounts as required. Ensure fresh clean water is always available. Provide a good quality grit for extra minerals and to aid digestion. Fresh fruit and greens, Millet Sprays, Cuttlefish and treats will all usefully add nutritional variety, and provide a positive everyday stimulus for enclosed birds. An egg food supplement, especially during the Breeding and Moulting season is also beneficial.

**Available In:** 20kg Bags.
