

Fruity Songster

Fruity Songster specifically caters for soft-billed birds that have difficulty in de-husking the hard seeds that are found in most traditional wild bird foods, which can create waste in the garden. The mixture contains plenty of easily edible, high energy foods such as flaked naked oats, sunflower hearts and peanut granules, as well as the popular juicy raisins. We carefully blend this with Softbill Pâté, a highly nutritious, fat-rich food with insects that is bound in honey, containing added vitamins, minerals and trace elements, helping to keep birds in super condition. The added Pro-tec health aid boosts the nutritional value of this mixture further by helping to naturally support the micro flora in the gut and provide essential elements for the immune function.

- Easily edible mixture for soft-bills
- Very nutritious and tasty
- High in energy sources
- Added Vitamins, Minerals and Trace elements
- Contains insects
- Husk-free, No Grow, No Mess

Composition: Sunflower Hearts, Peanut Granules, Raisins, Pinhead Oatmeal, Flaked Cereals, Softbill Food, Pro-tec Health Aid.
