Insect Feast

Insect Feast is a carefully formulated mix based on authentic, natural feeding habits such as mealworms and insects. The protein packed insects and the energy rich suet pellets create a highly nutritious base, whilst the flavoursome Rowan berries and honey-based Softbill food further enhance its attractiveness to a whole host of garden birds. The appetizing ingredients also ensure there is absolutely no waste or mess left behind, and have the added benefit of being non germination. The added Pro-tec Health Aid boosts the nutritional value by helping to naturally support the micro flora in the gut and providing essential elements for the immune function.

- Packed with nutritious insects
- High in energy sources
- Based on natural feeding habits
- Attracts shy feeders
- Totally mess-free
- Very popular with a variety of birds
- No Mess, No Waste, No Grow
