Island Harvest

Island Harvest is a premium wild bird food, carefully designed to be husk-free and ideal for use in tubular feeders. It contains a whole variety of highly nutritious ingredients that provide the birds with high energy levels, especially during times when natural food sources are low. This diverse mixture will attract a broad spectrum of birds into the garden all year round, as it includes more edible, smaller seeds which appeal to the small beaks that can struggle with more traditional mixes that contain larger seeds and husks.

- High energy source
- Ideal for use in feeders
- Minimal waste, Husk-free mix
- Suitable for smaller beaks

Composition: Maize Chips, Sunflower Hearts, Mixed Millets, Red Dari, White Dari, Pinhead Oatmeal, Naked Oats, Peanut Granules, Split Peas, Wheat, Safflower, Nigerseed, Canary Seed, Hemp.

Feeding Instructions: Best to feed twice a day from a variety of feeding stations to attract a greater diversity of birds into your garden. Ensure fresh, clean water is always available for drinking and bathing.
