Robin & Small Bird

Robin & Small Bird is a highly nutritious combination of soft grains and bite-size pieces, blended with sunflower hearts for energy sources, particularly attractive for Robins, Wrens and many other small birds that struggle with some of the more traditional mixes, containing larger seeds and husks. The protein packed mealworms and the fat-rich suet pellets make this mixture popular in the garden, as it remains true to natural feeding habits all year round. Additionally, the added Pro-tec health aid boosts the nutritional value of this mixture by naturally helping the well-being of birds, supporting the micro flora in the gut and providing essential elements for the immune function.

- High in energy sources
- Highly nutritious
- Husk-free, No Grow, No Mess
- Easily edible for smaller birds & soft beaks
- Popular year round
- Complements natural feeding habits

Composition: Sunflower Hearts, Maize Chips, Rolled Naked Oats, Millet, Pinhead Oatmeal, Flaked & Kibbled Wheat, Peanut Granules, Suet Pellets, Dried Mealworms, Pro-tec Health Aid.
