Summer / Winter Picnic

Winter / Summer Picnic is a super wild bird food, formulated with over 20 different ingredients in order to attract many species of bird into the garden, including our native seed eaters and soft-bill birds. Additionally, the more exotic tonic seeds are tempting to the rare passing migrant. The added high protein pellets and vitamin supplement helps to keep the birds in peak condition over winter, preparing them for the strenuous breeding season that follows. The added Pro-tec Health Aid naturally supports the micro flora in the gut and provides essential elements for immune function. During the Spring and Summer period, we add a fine bird grit to boost the calcium levels of the mix, which contributes to better quality egg shells.

- High energy source
- Suitable for both soft-bills and seed eaters
- Pro-tec Health Aid
- Strengthens egg shells
- Prepares for breeding season

Composition: Wheat, Peanut Granules, Millet, Black Sunflower, Flaked Cereals, Pinhead Oatmeal, High Protein Pellets, Hemp, Wheatmeal Biscuit, Canary Seed, Nigarseed, Fine Bird Grit (Summer Picnic), Pro-tec Health Aid.
