Wheatgerm Oil

Wheatgerm Oil is a 100% natural fat soluble oil derived from the kernel of the wheat grain. Used for its positive effects on energy levels, metabolism & performance, Wheatgerm Oil is a valuable addition for both Breeding and Racing. Wheatgerm Oil is a rich natural source of vitamin E and also contains good level of vitamin A, D3 and Multiple B vitamins.

- Rich natural source of Vitamin E
- Ideal for use in the Breeding season.
- Essential for older pigeons or where fertility is impaired
- Encourages greater reproductive capacity
- Supports skeletal structure and development
- Strengthens immune and nervous system
- Beneficial effects on the heart and blood condition
- Aids plumage and skin condition
- Increased endurance capacity and muscle strength
- Accelerates recovery after racing and exercise

Composition: 100% Pure Refined Wheatgerm Oil.

Analytical Constituents: Crude Protein <0.1%; Crude Fibre <0.1%; Crude Oils 99%; Crude Ash <0.1%; Moisture <0.1%; Sodium <0.1%.

Directions for Use: Add 2.5ml per 1kg of corn twice weekly. During breeding, increase to 4 - 5 times a week.

Available In: 250ml Bottle.
