ActiCell

ActiCell is new generation probiotic health and performance energy booster, which will deliver great benefits to Racing Pigeons throughout the season. This is produced for Bamfords by a global leader in the world of yeasts and bacteria, and comes with complete EU approval, with all claims for the product being scientifically proven.

See how your pigeons can rely on this new specific probiotic just when they need it most.

- Positive influence on pigeons well being
- Optimises digestive microflora
- Improves feed efficiency & nutrient absorption
- Better gut integrity
- Favours commensal positive bacteria
- Helps stimulate natural immunity
- Inhibits development of pathogens (e.g. E-coli, salmonella)
- Helps quickly establish good bacteria after medication
- Less than 1p per pigeon per day

Feed Materials: Proprietary mixture of 3 feed materials** up to 200g
**All in Regulation (EC) No 688/2013 (as amended).

Additives: *Pediococcus acidilactici* CNCM MA 18/5M - Zootechnical additive - Gut flora stabilizer (E1712 / 4d1712) 2.5 x 10⁹ CFU*/g *Colony forming units

Recommended Dose:

ActiCell is used at a rate of 5g/10L of drinking water.
Daily dosing is recommended to maintain optimal levels of beneficial bacteria during performance periods.
Maintenance dose: 3 times per week.
Dosage can be doubled during challenging health periods eg. Young Bird Sickness, digestive disorders, wet droppings, post medication treatment.

Directions for Use:

Blend 5g of powder into 10L of clean water at ambient temperature and mix gently to achieve a homogenous mixture.

Additional information:

ActiCell is a live bacteria and is fully active in the water for 24 hours.

Available In: 200g Tub.
