BronchoMax

A 100% natural respiratory aid to help keep nasal passage and airways clear of mucus congestion.

- Can be used as a nasal drop or added to water
- Helps to treat Dirty Wattles, One Eye Cold, Fat Eye, Panting, Wheezing
- Made from 100% natural ingredients
- Use alongside the other Bamfords Top Flight healthcare products for improved health

Composition: Marshmallow, Eyebright, Eucalyptus, Horehound, Cyder Vinegar.

Recommended Dose:

Neat with dropper, or 2mls to one pint of water for 3 days.

Directions for Use:

It is recommended birds are nasalled 2/3 weeks prior to racing. Alternatively, can be used anytime birds are not performing. Place one small drop in each nostril, leave for 15 minutes, then lightly press each nostril in turn. Using a swab, remove mucus from nasal area. Ensure the nostril's are thoroughly dry. Open the beak gently and press both wattles 8-10 times watching the cleft. Remove mucus by rotating the swab between the finger and thumb along the cleft.

Additional information:

BronchoMax is not to be used as Eye Drops under any conditions.

Available In: 100ml Bottle.
