Chinchilla Pellets

Chinchilla pellets are a complementary food suitable for Chinchillas and Degus. They contain specially selected ingredients that provide all the essential vitamins and minerals your pet needs for a healthy, happy life. These high fibre pellets are vital for a healthy digestive system, and they naturally keep teeth trimmed and strong. Chinchilla Pellets also prevent selective eating, a common problem when feeding a muesli-type diet.

- **High Fibre**
- **Packed with vitamins & minerals**
- **Support digestion**
- **Promote dental health**
- **Prevents selective feeding**

Composition: Wheat Feed, Hipro Soya (produced from GM Soya), Grass, Soya Hulls (produced from GM Soya), Oats, Oat Feed, Full Fat Soya, Limestone, Sodium Bicarbonate, Soya Oil, Salt, Di-methionine, Vitamin E Prefix, Vitamins & Minerals.
